Deliberation Ends	45	03	03

Proposal technical assessments

Technical Assessments are evaluations of a proposal's feasibility, generally with regard to operation and budget.

Urban Infrastructure

Interactive Urban Lights Project
What if lights can follow you while you pass by? What if they can be like [...]

The proposal is relevant, but seems uncomplete. We suggest adding a list of materials that will be needed and example of interactions that will be supported. As of now, it is not clear what are these "interactions" and what are their benefits for the community. Add also a detailed budget.
